Nordic Council of Ministers

INVITATION

Nordic Council of Ministers welcomes you to its side event
at the International conference on chemical management:

NORDIC COOPERATION GIVES BETTER RESULTS

Results of Nordic Cooperation on Chemicals

Saturday 4th of february from 1–3pm

Dubai International Convention Center (Room announced on site)

Speakers:

Alf Lundgren, Swedish Chemical Inspectorate

Sigríður Kristjansdóttir, Environmental and Food agency of Iceland

Format:

- Reception with beverages and light food.
- Speeches, presentations and discussions
- Experience with databases on chemicals developed under Nordic Cooperation

For whom?

The side event is open to all ICCM participants.

Purpose:

To introduce the results from the cooperation in the Nordic Countries (Denmark, Finland, Iceland, Norway and Sweden) on chemicals. Also to introduce Nordic databases around chemicals which are accessible to all interested on the Internet.

Background:

Nordic co-operation is designed to promote Nordic points of view on issues where joint Nordic efforts have a more positive effect than the countries could hope to achieve individually.

The Nordic cooperation on chemicals has resulted in better knowledge and informations about effect of various chemicals on the environment and human health.
