UNEP Global Mercury Partnership

Subject: Support Letter for UNEP Global Mercury Partnership Program

Dear Sir/Madam,

We are glad to register and participate as your partner for UNEP GLOBAL MERCURY PARTNERSHIP Program.

Our organization is a Bali-based NGO working on urban environmental management improvement to improve people quality of life as well as the environment. To achieve our goals, we work with all stakeholders at local as well as national level.

We have just started our mercury related program in health care sector and artisanal gold mining in cooperation with Ministry of Health and the WHO. Our role and contribution in mercury related program are mostly facilitation in the field, provide technical assistance for stakeholders and develop modules and training materials within capacity building framework.

Hopefully our small contribution at local and national level can support UNEP Global Mercury Partnership Program.

Faithfully yours,

Yuyun Ismawati

Director
